## GOLD MINERS ARE STARVING.

Republicans Claim to be in the  
Lead in New York, Though  
Tammany is Betting  
Favorite.

Nine Deaths Today in New  
Orleans and Four New  
Cases.—Colder Weather  
There May Check It.

Seattle, Wash., Nov. 1.—Latest  
advice from Dawson in the Klon-  
dike region are to the effect that  
thousands of gold miners are starving  
and appeals are made to their friends  
for immediate aid.

Greater New York's Election.  
New York, Nov. 1.—All parties  
claim victory in the New York elec-  
tion tomorrow. The Republican are  
very sanguine of success, but Tam-  
many's candidate is still the betting  
favorite.

Colder Weather in New Orleans.  
New Orleans, Nov. 1.—Nine  
deaths today, and four new cases in  
the yellow fever record in this city.  
The weather is colder and it is hoped  
that the progress of the fever will  
soon be checked.

## POLITICAL NOTES.

Two Prominent Speakers at  
Mayfield Saturday.

Jo Parker in Paducah and Speaks  
Tonight.

About 1,000 persons, Democrats,  
Republicans and Populists, were  
present at the court house in May-  
field Saturday afternoon to hear the  
speeches of Senator William Lindsay  
and ex-Governor S. B. Buckner in  
defense of the sound money Demo-  
cracy. The best of attention was  
paid throughout, and a number of  
ladies were present to hear a dis-  
cussion of the money question. The  
speakers were introduced by Hon.  
J. C. Spight, ex-Representative from  
Hickman county, who has lately  
become a citizen of Mayfield.

Senator Lindsay spoke first, but  
on account of a very severe cold he  
was unable to fill his time and consumed  
only an hour. His talk was a very  
able one, and his hearty manner  
gained him many friends. The Sen-  
ator was received in the ad-  
joining county of every name and  
order, many of whom were present  
to hear him. He put in some good  
words for National Democracy, and  
his coming strengthened the cause in  
that section.

Gov. Buckner spoke an hour, and  
his remarks were heard with good at-  
tention by many of his old war com-  
rades, some of whom are free silver-  
ites, but could not forego the pleas-  
ure of again meeting and hearing the  
old warrior who had so often led them  
to the light in days gone by. No  
speakers have been to Mayfield this  
year who met with as royal a recep-  
tion as these two old veterans, and  
they have given to the sound money  
cause an impetus that will be felt in  
the election tomorrow.

The crowd when greeted J. A.  
Parker, candidate for Appellate Clerk,  
at Owensboro Saturday afternoon,  
filled the circuit court room. It was  
composed mostly of Populists from  
the county. Parker's speech was  
in the main along the line of his  
previous speeches during the cam-  
paign, but that portion to which he  
paid his respects to certain free sil-  
ver papers and leaders, and very hot at  
that. He reviewed his candidacy  
and said free silver leaders first of  
himself the chief deputyship under  
Shackelford. Failing in this, they  
tried to build him up, and as a final  
resort, took to lying. He read pa-  
pers and letters defending himself  
from the charges made against him  
at Murray and denounced certain ed-  
itorial and news reports in free sil-  
ver papers as infamous lies. He an-  
nounced that he would return to  
Murray and speak there next Mon-  
day. Parker had challenged any  
free silverite to meet him today, but  
none appeared.

Jo A. Parker spoke today at Ber-  
ton, Ky., and will arrive in the city  
and speak tonight at the market  
house. He will give the people some  
"hot stuff," it is said.

Capt. Farley has made many  
friends during this campaign, and  
feels confident of victory at the poll-  
tomorrow. He has a strong follow-  
ing, and will get, in addition to the  
full Republican vote, that of many  
Democrats and Populists, as well as  
gentlemen independent in politics.

Now is the time to buy your Heat-  
ing Stoves. Scott Hardware Co.  
has lots of them.

VOTE THE TICKET STRAIGHT.

## NEWS IN A LOCAL WAY.

Still Dull in Police Court Circles  
—The New Poor Farm  
Keeper Takes Charge  
Tomorrow.

Tomorrow Election Day, and the  
Final Preparations are being  
Carefully Made—Other  
News of the City.

Jesse Ellis, colored, and Joe Smith  
were docketed this morning for a  
breach of the peace committed Oct.  
24th. Smith lives in the Clark's river  
neighborhood and did not answer to  
his name. The evidence was heard  
and showed that Smith stepped on  
Ellis' toe and then beat him over the  
head with a beer glass for objecting  
to it. He was fined \$5 and costs  
and Ellis was acquitted.

Anthony Kyle was fined \$3 and  
costs for being drunk and disorderly.  
These, together with the case against  
Ed Morton, charged with stealing a  
cow and left open, constituted Judge  
Sanders' docket. There will be no  
court tomorrow on account of its be-  
ing election.

Assistant Overseer of the Chain-  
gang Emil Goureaux was able to re-  
sume work today, but on account of  
the weather the gang was not taken  
out.

Mr. Hugh Craft, recently elected  
by fiscal court as keeper of the coun-  
ty poor farm, will take place tomor-  
row morning. Mr. Crutcheff, who  
has made an efficient superintendent  
during the past year, retiring. Mr.  
Craft says he will inaugurate some  
necessary changes and improvements.

Custodian J. R. Pyle has ap-  
pointed Hiram B. Davis, colored, as  
janitor of the government building,  
and the latter will enter into his new  
duties about the 15th inst. He suc-  
ceeds Mr. J. B. Gilbert, who has  
been janitor for several years past.  
The salary attached to the office is  
\$600.

Two large flocks of wild geese, with  
about 150 in each flock, pass high  
over the city this morning about six,  
and strange to say were going direct  
north. It may be that they became  
frightened at the yellow fever re-  
ports from the South.

Yesterday morning a large flock  
was seen flying south.

A peculiar state of affairs is re-  
ported from Little Cypress, Marshall  
county, up on the Illinois Central a  
few miles from Paducah. John  
Dawes and Sam Brooks, two well  
known citizens, began the erection of  
a small frame building to be used as  
a grocery store on property belong-  
ing to the railroad company, near the  
depot. The railroad authorities there  
gave them permission to erect the  
house, and they thought permission  
from the higher authorities could  
readily be obtained.

But a rival grocer, it is supposed,  
who thought the new concern would  
injure his trade, sent word to the  
railroad company that a saloon was  
being put up on their property, and  
they ordered it stopped. Nothing  
dismayed, however, they proceeded to  
put the rollers under their almost  
completed house, and rolled it over a  
few hundred feet to another man's  
ground, and will soon be running full  
blast.

Last night was All Hallowe'en,  
and it was commemorated in Paducah  
in a quiet and unostentatious  
manner, owing to the fact that it was  
Sunday. This prevented any great  
number of watch parties and other  
forms of levity incident to the event.

## IMPORTANT TO VOTERS.

[From Election Law, Art. III, part of Sec. 20.]

Should any elector desire to vote for each and every candidate of  
one party, he shall make a cross-mark (X) in the large square embrac-  
ing the device and preceding the title under which the candidates of said  
party are printed, and the vote shall then be counted for all the candi-  
dates under that title. *Provided, however,* That if a cross-mark (X) be  
made in the large square including the device of such party, and a cross-  
mark be also made in the square after the name of one or more candi-  
dates of a different party or parties, the vote shall be counted for the  
candidate so marked, and not for the candidates for the same office of  
the party so marked; but the vote shall be counted for the other candi-  
dates under such party name or designation.

## GRAND RALLY TONIGHT

At the Court House by the  
Republicans.

Good Speakers Will Talk on the  
Issues of the Day.—Every-  
body Come Out.

The grand Republican Rally at the  
court house will take place tonight,  
whether it rains or not. Capt. J. E.  
Williamson, Nominee Ed Farley and  
Col. Henry Houston will speak.  
Other speakers will also be there.  
Everybody is invited to come out and  
enjoy the occasion.

## EPISCOPAL CONVOCATION

Begins Tomorrow at Hopkins-  
ville, Ky.

Rev. B. F. Reed, of the City, is  
Dean—Down for a Sermon  
and an Address.

The Paducah convocation of the  
Episcopal church meets tomorrow at  
Hopkinsville, Ky., in Grace church.  
It begins in the afternoon of Tues-  
day and adjourns Thursday night.

There are seven churches and eight  
missions in the convocation. About  
thirty delegates and many visitors  
will go to Hopkinsville to attend the  
meeting. Rev. B. F. Reed, of the  
city, is dean of the convocation and  
Rev. Robert S. Carter, of Hopkins-  
ville, secretary. Representatives will  
be present from the churches at  
Henderson, Russellville, Hickman,  
Columbus, Guthrie and Paducah.

Rector Reed, of the city, is down  
for a sermon tomorrow night and an  
address Wednesday afternoon. Mrs.  
Reed is to read a paper entitled  
"Our Women Missionaries."

## NEWSPAPER DEAL.

Mr. J. R. Lemon Disposes of His  
Register Stock.

Mr. Wilhelm Now Sole Owner of  
Paducah's Only Morn-  
ing Daily.

A newspaper deal that had been on  
the tapis for some time was consum-  
mated Saturday night, and by its cul-  
mination the Paducah Register passes,  
it is understood, into the sole man-  
agement and control of Mr. James  
E. Wilhelm, the present general man-  
ager, for the present, at least. Mr.  
J. R. Lemon, who has been identi-  
fied with the paper since its estab-  
lishment a little over a year ago, hav-  
ing disposed of his stock.

It is not at present known what, if  
any, changes will be made. It has  
been rumored that Mr. E. L. Leigh,  
who accepted a position on the Owens-  
boro Messenger a few months ago,  
will return to Paducah and assume  
editorial management of the paper, but  
this is probably not true.

Mr. Wiley Woodson, according to  
reports, will surrender the manage-  
ment of the Louisville Dispatch after  
the election and return to the Owens-  
boro Messenger.

## SMALL BLAZES.

The Fire Department Called Out  
Saturday Night.

Saturday night about 10 o'clock  
fire was discovered in the new drug  
store of Mr. John Bonds, at Third  
and Court streets. Passers-by saw  
smoke issuing from the building and  
gave the alarm. It proved that a  
box of nitric acid was ablaze, and  
the flame was extinguished without  
great damage.

Late Saturday afternoon a small  
blaze at the home of License Inspect-  
or James, at Third and Madison  
streets, called the department out,  
but its services were not needed.

A condemned box car was ignited  
in the I. C. yards Saturday after-  
noon at 1 o'clock for the purpose of  
testing the fire department, organized  
among the shop employees. Some-  
one saw the blaze and sent in an alarm  
from Twelfth and Broadway, neces-  
sitating a useless run of the depart-  
ment.

The Stoves at Scott Hardware Co.

A VENTURESOME HORSE.

Fried to Run Across a Railroad  
Trestle.

A horse belonging to Mr. F. R. G-  
lesberger ran away yesterday a ter-  
rible and created some little excite-  
ment on the south side.

The animal broke loose from the  
buggy and ran some little distance  
out on the Nottoville trestle of the  
N. C. & St. L. and then fell through.  
The horse was rescued only with  
great difficulty. It had to be hoisted  
up by ropes and pulleys and then led  
back, and was badly scared up.

## HER HUSBAND KILLED HER.

Tragic Death of a Former Padu-  
cah Girl in Denver.—Shot  
Through Her  
Head.

Her Husband is Under Arrest.—  
Says He Was Shooting at a  
Burglar—Her Marriage  
Was Romantic.

The following associated press dis-  
patch, sent out from Denver, Colo-  
rado, Saturday night, will prove of no  
little interest to Paducahans, where  
the subject of a sensational tragedy  
formerly resided:

Fred C. Sanchez, general manager  
of the firm of F. C. Sanchez & Co.,  
dealers in hides, wool and tallow,  
shot and killed his wife this morning  
in the Colorado House. Sanchez is  
twenty-one years of age, his wife but  
nineteen.

So far as known, they had had no  
trouble. Sanchez claims he was  
asleep with his wife, when some one  
opened the door and shot at him.  
He says he pulled his forty-five cali-  
ber revolver from beneath his pillow  
and fired, but in his excitement he  
did not raise his arm far enough and  
shot his wife through the head. The  
police doubt the man's story about  
having been shot at while in bed, for  
when arrested immediately after the  
shooting he was attired in street  
clothes and bore no evidence of hav-  
ing retired for the night. Sanchez  
and his wife, whose maiden name was  
Jennie Warren, were married about  
six months ago at Metropolis, Ill.,  
which was the home of the girl, an  
orphan. Sanchez came from Valen-  
cina, N. M., a town south of Albu-  
querque, where his father still lives.

It is said the woman's life was  
heavily insured.

Mrs. Sanchez, formerly Jennie  
Warren, resided in Paducah until last  
May, at the residence of her aunt,  
Mrs. Officer J. F. Barnhart, 617  
North Fifth street. She is also re-  
lated to Mrs. B. R. Eshbanks, Mr.  
James P. Long and Mr. Henry  
Warren, of the city, and a young  
brother, George Warren, now makes  
his home with Officer Barnhart.

The marriage of the unfortunate  
girl was quite romantic. She read  
an advertisement in a matrimonial  
paper from Sanchez, and soon a cor-  
respondence sprang up. Sanchez  
went to Metropolis, where the girl  
was living, in August, and spent two  
or three days. On August 22 last  
they were married, by Judge Liggett.

The latter received a telegram Sat-  
urday announcing the tragedy, and  
forwarded it at once to Paducah rela-  
tives. Through some oversight, how-  
ever, it was never delivered, and it was  
merely through accident that a lady,  
nearly of it and mentioned it to a re-  
lative when she returned from Metrop-  
olis Saturday. The telegram was de-  
livered yesterday.

The remains will probably be bur-  
ied in Denver. Today, however, it  
had not been decided whether rela-  
tives here would have them shipped  
or not.

Officer Barnhart learned at Me-  
tropolis yesterday that the husband's  
actions while there were very pecu-  
lier. He employed a man to attend  
him, paying him \$25. He transacted  
his business through him, and would  
not leave his room at the hotel except  
in a hack, and would not allow his  
name to be disclosed to any one.

This morning the chief of police  
was telegraphed to ship the remains to  
Paducah for interment.

Mrs. Sanchez was the second  
daughter of William Warren, of Liv-  
ingston county, who died some fifteen  
years. Her mother died about the  
same time and a family of five  
children were thus orphaned.

The nearest relatives in this city  
are a brother, George Warren, aged  
about 15 years, who lives at 1040  
Trimbale street; her grandfather H. C.  
Warren, same address, and two  
aunts, Mrs. B. J. Barnhart, of 617  
North Fifth, and Mrs. John D. Eu-  
bank, of 269 North Seventh.

An elder sister, Miss Kate Warren, resides  
in Mound City, Ill., and a younger  
sister at Bay City, Ill. One brother,  
Merritt Warren, aged 17, lives near  
Joppa, Ill., and met with an accident  
in the inadvertent discharge of a gun  
while hunting a month or so ago,  
which renders useless the thumb of  
his right hand, and which was a nar-  
row escape from death, two or three  
times passing through his hat brim.  
His arm is still worn in a sling.

Look out for election lies that  
may be started at the last mo-  
ment. Victory is in sight. All  
we need is a full Republican  
vote and we will win.

## VOTE FOR

# The Constitutional Amendment.

By Stamping Your X Opposite "YES" on the Ballot.

This change will not affect state or county taxes. It will only allow the Legislature the right to choose the best means of taxing personal property in cities for city purposes, so that the burdens of all shall be, in fact, equal.

Give us real equality and the right to govern ourselves as we find best by experience.

Give us more business houses and more factories, home rule and equal taxation.

## VOTE FOR THE AMENDMENT.

CAPT. FARLEY does not "abuse  
Republicans" for any vote they may  
see proper to give. It is a question  
for every voter to decide for himself  
between his conscience and his duty.

If the President can afford to go  
from Washington to Ohio to vote  
can any other member of the Repub-  
lican party afford to stay at home on  
election day, or neglect to vote the  
entire ticket?

THE Lang tail asks Democrats to  
support Lang as a nominee, when  
Lang has more than once held  
Democratic nominees and candidates  
for mayor. He is a fine subject to  
expect party fealty.

THE "better element" of the Re-  
publican party and all other elements  
will vote for Farley. The "better  
element" always votes the ticket. The  
one who does not vote the ticket is  
not much of an element of any kind.

THE SUN will bulletin the election  
returns, and anyone who wants the  
news from the election as it really is,  
should call at the office and view our  
bulletin. Everybody regardless of  
their politics are cordially invited.

A MAN may do very well as long as  
he continues to paddle a dug-out, but  
be a miserable failure as a command-  
er of a steamboat. Lang may suc-  
ceed in running a school board, and  
yet not have capacity enough to be a  
mayor of a city.

WHAT use have the people for a  
man who either does not know  
enough of public affairs to talk about  
them publicly when he is a candidate  
for office, or has such a bad set of  
ideas that he is afraid or ashamed to  
let the people know them.

LET every Republican election of-  
ficer be at the polls tomorrow or have  
some good republican there in his  
stead. You have been appointed by  
the court and are expected to serve  
the same as if you were summoned  
on the jury. Don't neglect this im-  
portant turn.

**VOTE the Re-ublican ticket.**

THE clean, courteous and dignified  
cavass that Hensley Harris has made  
for city prosecuting attorney entitles  
him to the consideration of the  
voters. He has made his campaign  
upon his own merits without assailing  
the character of any one, and if elect-  
ed he will give the duties of the office  
the same quiet attention.

**Don't forget!—The polls close at

WHAT does Lang propose to do?  
What line of policy would he pursue?  
Is he for high taxes or low taxes? Is  
he in favor of the sewer system or  
would he tear it out of the ground?  
He refuses to talk for himself and if  
one may judge from the Register as  
to his probable acts, he will be a mis-  
fortune to himself and a blunder for  
the city.

it is certain that he is anxious to get  
them.**

It is always difficult for an editor  
who wears a G. hat to comprehend  
the capacity of a 24-inch sewer pipe,  
or to ally his feet on any question.

**THE Register need make no ex-

offenders of the law will be in a  
pitiable situation, for the city court  
is but a preliminary proceeding from

representatives of this greedy clique  
have control, justice would never be  
tempered with mercy.

As LANG is afraid to open his  
mouth, the people are justified in as-  
suming that he agrees with his spokes-  
man, the Register. Capt. Farley in-

thing he wished, but the only response  
comes from the tail which does the  
wagging.

The report of the director of the  
mint shows that the United States  
produced last year nearly a third of  
the silver output of the world, and  
that she contributed over a third of  
the gold coinage of the world. The  
silver production amounted to \$215,-  
000,000, while the gold coinage  
was \$204,000,000.

No workman should be misled  
by Wheeler Campbell's promises as  
to garnishments. The law is plain  
and cannot be changed by any one  
except the Legislature. He can but  
do what the law says. Vote for  
Hensley Harris and vote for a young  
man who would seem to work any  
scheme to get your votes, but who  
will always do the right thing, whether  
elected or not.

**REMEMBER!—Polls close at 4

FARLEY is a schemer, but he tells  
the people from the stump what his  
schemes are. He schemes for the  
benefit of the taxpayer—for the  
health, growth and prosperity of the  
people. What does Lang propose?  
He is afraid to say a word, and hope-  
fully a still-hound to slip into office, and  
then he and boss Yeiser will run the  
machine to suit themselves.

**STAMP under the Log Cabin.**

How long has Wheeler Campbell  
been a friend to the working man?  
Today he has them in his embrace,  
but tomorrow the frigidity of his de-  
meanor toward those people who sus-  
tain their own by honest toil, will  
repel them. The coldness and re-  
serve that has ever characterized this  
man's family is proverbial, and the  
voters of Paducah are cognizant of  
the fact. They will not vote for a  
man who speaks to them while a can-  
didate, but ignores them at all other  
times.

**STAMP under the Log Cabin.**

"JOURNALISTIC courtesy." What  
a crime! What a comment from such  
a source. A strut from a country,  
stage-struck fool, who fancies himself  
a Booth or a Murdock. "Newspaper  
amenities." The devil smirking as  
he repeats the Lord's Prayer. The  
underbred censor cannot define the  
word "amenities" without the aid of  
a dictionary. Some fellows cover the  
multitude of their own sins by find-  
ing fault with their neighbors. The  
SUN will not complain of lack of  
"amenities," because it does not ex-  
pect them now. In course of time it  
will throw a comprehension of them  
into even the head of a G. hat.

**VOTE the Republican ticket.**

MR. LANG is asking his friends to  
take him on trust, and is afraid to  
tell them what he is for, or against,  
in public matters. He expects them  
to vote for him on the ground he is a  
democrat, when he knows he voted  
against democratic nominees. He  
may have voted for free silver—no  
one can prove or disprove it—but  
that is certainly not the only re-  
quirement for a mayor. There are men  
now on the democratic ticket, who  
are gold standard men, and probably  
voted for McKinley.

**A VOTE for the Republican Ticket  
is a vote for Prosperity, Progress  
and a Clean City Government.**

**That was a "cold bluff" that our  
foreign friends were working on us  
when they insisted during the consid-  
eration of the Dingley tariff bill that  
its adoption would force them to ex-  
clude our merchandise in retaliation.**

The exports of grain and manufac-  
tured articles go on just the same as  
before, increasing rather than de-

creasing, and none of the nations  
which threatened such terrible things  
as a result of our protective tariff  
have reduced their demand or shown  
any serious disposition to cut off the  
supply of our products which they  
were purchasing from month to month  
before the adoption of the Dingley  
law.

**VOTE the Republican ticket.**

THE tail which wags Lang charges  
Farley with visiting negro saloons.  
Is this true or false, there is a gang  
of ten or twelve negroes who congre-  
gate at the drug store, corner of Sec-  
ond and Market, whether there is a  
saloon there or not, or whether the  
negroes get their drinks there or not.  
The worst that can be said would be  
the difference between the mountain  
going to Mahomet, or Mahomet going  
to the mountain.

**VOTE for the constitutional amend-  
ment.**

Who are the "traitors who stab in  
the back?" The SUN has before now  
asked a reply to this from the free-  
silver-gold standard-free-trade-pro-  
tection-Janus-faced-Lang-wagging-  
all-things-to-all-men-Register. Does  
he mean those good people who voted  
the Republican ticket in 1895? Will  
it never get over the defeat of a se-  
cond ward candidate for councilman,  
backed up by A. P. A. confederates?  
Will it continue to snarl because a  
large number of Democrats refused  
to be sold or traded to the A. P. A.  
crowd in that election?

**STAMP under the Log Cabin.**

It is not surprising that the free  
silver advocates find their forces  
breaking away from them, and taking  
ground in favor of absolute flat  
money. Large numbers of men who  
supported free silver last year are re-  
ported from all sections of the coun-  
try as transferring their party adhe-  
sion from the silver ranks to those  
of the parties and organizations favor-  
ing an enormous issue of paper money  
by the government. It is entirely  
logical that the men who a year ago  
were willing to see the government  
issue dollars which would be 60 per  
cent flat are by this time willing to  
go further and make the dollars all  
flat.

TOMORROW is election day. The  
polls open at 7 o'clock in the morn-  
ing and close at 4 o'clock in the af-  
ternoon. It is the duty of every reg-  
istered voter to vote. Many votes  
have been lost by laggards who wait-  
ed until the last minute, and then it  
was too late. Make it your first busi-  
ness in the morning to vote. Vote  
early and there will be no danger of  
being left. Let every Republican in  
the city put in his vote before 12  
o'clock. Do not wait later, but get  
in your vote before you begin the  
other business of the day. As soon  
as 7 o'clock comes in the morning,  
start for the polls and don't leave un-  
til you have voted. The Republicans  
have the best men on their ticket, and  
every man with the welfare of the  
city, county or state at heart should  
stamp under the log cabin and vote  
the full ticket.

**Don't forget!—The polls close at  
4 o'clock.**

"A POLICEMAN's life is not a happy  
one," and every man one may pick  
up will not be serviceable for the  
place. It requires an education, a  
peculiar education, to make a good  
officer. They belong to class of pub-  
lic servants upon whose watchfulness  
and care depend the lives and prop-  
erty of the citizens. A few men may  
have a natural and peculiar adapta-  
tion for the place, but with the many  
an education, acquired only by prac-  
tice and experience, is all-important.  
If there is any class of officers who  
should be kept in position, by reason  
of merit, it should be the policeman.  
The charges of such officers on ac-  
count of politics is not judicious. A  
fine officer should be retained regard-  
less of his political views. Some time  
policemen interfere with elections,  
but it is very seldom. Yet such in-  
terference should be good grounds for  
removal from office. It is always best  
to keep a good policeman.

**STAMP under the Log Cabin.**

THE majority is not to be won  
by a doggel, sullen silence of a can-  
didate, nor yet by the buffoonery of  
the "tail which wags the dog."  
There are clear cut business prop-  
ositions which silence cannot answer,  
and folly cannot cover over. A man  
may laugh at almost anything—ex-  
cept a funeral or a thorough busi-  
ness proposition. Capt. Farley has  
gone before the people stating his  
position, asking questions of the other  
side, and holding himself ready to  
answer all questions. Mr. Lang is  
as unresponsive as a clam and de-  
pends on something, perhaps occult, to  
win the election. He may feel se-  
cure, but people refuse to be satis-  
fied when he fails to respond to a de-  
mand for an expression of his own  
views on public matters. If he can-  
not talk where are his friends who  
can? The fact is, the ground which  
he or his friends are called on to de-  
fend, is utterly indefensible. The  
"tail" comes into the arena and  
seeks to make a piece of child's play  
for free silver sake, of the solemn in-  
terests of the city, and cover them  
with mockery and buffoonery. The  
people will not be satisfied with jokes  
in business matters, nor with the  
antics of the clown, or the mystery  
of harlequin.

**HURRAH FOR THE NEW BABY**

Princeton Students Cheer the New  
Son and Heir.

Princeton, N. J., Oct. 29.—The  
new Cleveland baby is all the talk  
here, and everybody stands around  
and asks everybody else if he has  
"heard about it." The ex-president  
has appeared but once, and then he  
smiled serenely when his friends of-  
fered congratulations. The advent  
of the young Democrat was celebra-  
ted by the students of old Princeton  
last night in royal style, and many a  
toast was drunk to the new son and  
heir of the Cleveland household.  
It is said the newcomer resembles  
his parents in points of good health,  
but neither Mr. Cleveland nor the  
three family physicians will say any-  
thing in regard to the newcomer,  
other than he is getting along nicely  
and is a fine boy.

Princeton undergraduates have  
taken a great interest in the new  
Princetonian. The fact that a Cleve-  
land heir was born was announced  
during the "varsity practice" yester-  
day afternoon. There was a large  
gathering of undergraduates on the  
field watching the "varsity and scrub"  
teams practice. When the announce-  
ment was made three Princeton cheer-  
ers were given for the boy, three for  
the mother and three more for the father.  
It is probable that the undergraduates  
will serenade former President  
Cleveland and his future heir at some  
future time.

On the college bulletin board, in  
front of Reunion Hall, was posted  
this notice:

"Grover Cleveland, Jr., arrived at  
12 o'clock. Will enter Princeton  
with the class of 1916 and will play  
center rush on the championship  
football team of '16, '17, '18 and  
'19."

The new baby's sisters are Ruth,  
Esther and Marion, whose ages are  
7, 5 and 3 years.

### WRITTEN AT RANDOM.

A well known young man attended church Sunday morning, and amused himself, until he became tired, chewing gum. When he felt a little weary, he removed the wad of wax and taking a contribution envelope from the receptacle on the seat in front of him, deposited his "wad" therein for future reference. During prayer, his companion secured possession of the envelope and tossed it back into the lap of one of the young ladies behind him. When "Amen" was sung, and the congregation was a dull hum straightened up, the young lady opened the envelope and was deeply embarrassed by the sight of the wax, for several around her were looking on. She suspected the young man, because she noticed his jaws no longer swayed with artistic nastication. When the congregation arose to sing the next song, she reached under the seat, froze to the unsuspecting young man's hat, and softly laid it on the man's hat. When he relapsed into his seat after the song there was a suppressed ex-ah, as a five-dollar head piece went down to ignominious demolition and ruin. He became very angry, and the result was that after he proved his innocence of complicity in the chewing gum transaction, the girls promised to buy him a new hat—but they haven't done it yet.

The health officer's report of deaths in Louisville shows a total of 222 deaths during October, against 286 for the corresponding month last year. 113 were males and 109 females; 103 white and 50 colored. The greatest proportionate number of deaths resulted from consumption. There were 29 from this disease, thirteen from heart disease, four from apoplexy, ten from pneumonia and seven from old age. The remaining deaths were from various other causes.

The fact mentioned several days ago might be repeated here, that consumption increases every year at an alarming rate, and despite the fact that it is contagious or infectious, people seem to have no fear of it.

A well known Paducah musician received a letter a day or two ago from some band in a little town down below, tendering him a job as clarinetist in the band. It made him the liberal offer of \$6 per week. The young man took it as a good joke—that is the offer of such a salary—and immediately replied:

DEAR SIR:—Times are hard and I think you had better keep your \$6 a week and do without a clarinetist. Yours,

This is something similar to another tart reply a Paducah musician sent to a perpetrate museum company not long since. It wrote him to come and join the show at a salary of \$3 a week. His reply was:

My Dear Sir:—Your salary is all right. I will accept your offer, provided you allow me the privilege of carrying out the end of the show, at least once a week, and of waiting on the fat woman. I want nothing to do with the living skeleton, and most emphatically decline to try my hat to the Cretaceous beauty, also will not rub the can for the snake charmer. If you agree to these terms, answer by telegraph.

Yours

He has not since been importuned by other offers from this troupe.

"Raise you a hundred," quietly announced the fat man with a suggestive expression on his face.

"To you a hundred better," replied the big man who drew one corner, as he cautiously exposed the corners of his pastebored and peeped through his fingers at them.

"Stay with you and call," concluded the other, as he set off a stack of chips and looked defeat.

"I've got 'em all alike—alike," said the other.

"Well live clubs always beat a 'big dog,'" philosophically said the other as he threw down his cards and saw the pot gathered in to the camp of the enemy.

"Yes, and sometimes one club will beat a big dog, too," jeeringly observed the man with the cards, as he began to turn "one at least I bet our old dog at home is glad there isn't more one club there."

And the man with the rubicund nose and Bacchicuman breath said if he could just get a full house he would win. But he didn't have the heart to do it—for it was a ten-spot, and in the hand of his neighbor.

The lodge of Elks at Marion, Ind., has its choice of two things—expel Bob Fitzsimmons, who was initiated only a few days ago, or have his charter revoked. As to the qualifications of a pugilist, and his worthiness of belonging to the order, there

might be with a few, some question, but in this case there is no two ways of thinking, for the general by-law and rules of the order exclude prize fighters from membership, and as long as this is constitutional it will be impossible to admit a pugilist. It is likely that the outcome of the Fitzsimmons matter will be that he will be expelled by the lodge that initiated him, as, if he is not evicted by the lodge, both the lodge and Fitzsimmons will be evicted by the District Deputy.

An amusing little incident of school life is going the rounds. Most boys when they approach a completion of their school career, have a sweetheart. The young man of whom the story is told, has a sweetheart in the person of a very pretty young girl, but like most other boys at his age, he is very sensitive on the subject, and the slightest allusion to his tender feeling by the other pupils of the school, brings the blushes to his cheek. When they found this out they began to tease him without stint or mercy, and the other day the young man gathered up his books and announced his determination to stop school rather than endure it longer. The teacher kept all the school in that afternoon except the young man and the girl, and gave the pupils a good lecture about their foolishness, expressly forbidding them to tease the young man again. He now goes back to school, and can love on and study in perfect peace and tranquility.

Officer Jones tells the following joke on Officer Frank Bond. The latter is a union of iron nerve and great forbearance, but is retiring in demeanor and has little to say.

Saturday afternoon he partook of some grapes before supper and then ate a hearty meal. Late Saturday night he became ill, and ejected his meal in short order. Twice did he thus give up his contents, and the last time saw blood. There was blood and blood, and very red blood.

The officer became frightened and sat down on the curbstone. The more he thought of the blood the weaker he got, and finally his partner, Officer Joe Ullman, came up and felt of his pulse. It was growing weaker and weaker. Officer Bond was afraid if he essayed to go home he would expire in the street, and Officer Ullman feared to go after help, for then his colleague might die unattended. The officer was dying by degrees. Presently he struck a match, and in the flickering light perceived that what the officer mistook for blood was grape juice. Officer Bond smiled a wan, hopeful smile when he learned the truth, and straightway began to improve. In five minutes he could walk, and when he went home he was well as ever.

Two candidates went down about Woodville a day or two ago and took with them two generous bottles of Bourbon. They had them tactfully concealed beneath papers and clothing, and put up for the night at "Uncle" Dick Bang's. They called their bundle "the baby," to keep the women folk from finding out what it was, and needless to say "the baby" received the most devoted attention that night.

But somehow the boys in the neighborhood caught on to the "infant's" presence in their midst, and in the dark and still night stole forth and obtained the little fellow. The next morning the candidates, who had left about two o'clock in the bottles, started away with their charge, and of course offered their best another pull at "the baby." It was then they learned what a risk it was to carry infants into a "dry" locality.

The voters of Paducah and McCracken county should rally to the support of Col. John J. Dorian, one of Paducah's best and most respected citizens, who asks for the office of jailer of the county. He has conducted a gentlemanly campaign, and has won the respect of all.

A good rain.

Four Hours.

The Best in Over Three Months.

—Farmers Happy.

A steady rain, amounting to only a drizzle at times, has been falling for the past twenty-four hours, and at nine o'clock this morning the rainfall had been 1.52 inches, the largest in the last three or four months.

This is what the farmers had long wanted, and now they can do their plowing. The indications are that much cooler weather will supplement the rain. The down pour seems to have been general.

### A STRANGE DISCOVERY.

The bite of a serpent an antidote for its bite.

Another very effective agent for overcoming the venom of serpents has been discovered by Prof. Thomas R. Fraser, of the University of Edinburgh. It is not whisky where with Americans antagonize the poison of rattlesnake.

Dr. M. M. Calmette's antioxic serum, obtained from the blood of animals which have been rendered immune by successive inoculations with small quantities of the venom. The new antidote is nothing more or less than the serpent's own bile. In reporting a series of elaborate experiments conducted by himself Prof. Fraser recently said:

"The bile from the gall bladder of the African cobra, puff adder, rattlesnake and grass snake was used, and each bile was tested against the venom of the African and Indian cobra. For the most part the experiments were made by mixing various quantities of each bile with a little more than the minimum fatal dose of the venom, and then injecting this mixture under the skin of the animal. The object of the experiments was not only to determine if the bile can render venom innocuous, but also, if it has this power, what is the smallest quantity of bile capable of doing it?"

Fraser recounted the various doses he employed, and their effects. He thus summarizes the result: "It was thus shown that the bile of venomous serpents is able, when mixed with the venom of serpents, to prevent lethal doses of the latter from producing the animal. The object of the experiments was not only to determine if the bile can render venom innocuous, but also, if it has this power, what is the smallest quantity of bile capable of doing it?"

### HOW TO VOTE.

Some Interesting Points to Voters.  
Something About Voting Scratch Tickets.  
For the information of those who desire to vote a split ticket tomorrow, it might be stated that if a voter stamp under any one device alone, it will vote every name on that ticket. If he stamp under any one device, and then in the square opposite the name of some candidate under another device, it will vote all of the ticket stamped, except the name in the other ticket, after which a cross was placed. For further information read the election law in another place.  
Look out for election lies that may be started at the last moment. Victory is in sight. A full Republican vote and we will win.

### JO PARKER SPEAKS TONIGHT

Holds Forth at the North End of the Market House.  
Will Pay His Respects to the Silver Democrats. Who Think They Have Him Bluffed.

Jo A. Parker, the Populist nominee for appellate clerk will speak tonight at the north end of the Market House. Parker's speech tonight will doubtless be most interesting in view of the statements that have been made by L. K. Taylor in reference to Parker.

Fraternist Circle meets tonight at 7:30 at Quigley & Boone's office. All members urged the be present.

### WILL LEAVE PADUCAH.

James Bryant Closes His Barber Shop.  
Jim Bryant, the colored barber, has closed up his barber shop on Broadway near the Racket store, and will move back to his old home in Washington City in a short time to spend the remainder of his days. He is still working at his trade here, however, in another shop. He is one of the best known and most comfortable fixed colored men financially in Paducah, and stands high among his people, as well as among the white people.

Claude Wade, aged 5 years, died yesterday at Palma, Marshall county, of diphtheria. He was a son of S. A. Wade.

### RAILROAD NOTES.

Prominent Railroader Dies in Chicago.  
News of Interest to Those Locally Interested.  
Dr. Marmaduke Dillon, resident physician of the railroad hospitals, meets the trains from the south to record the number of refugees who get off at Paducah and look after all suspicious cases.  
Curve, Tenn., has partially raised the quarantine, and allows trains to stop. But no passengers from the infected districts are allowed to get off.

### THE COUNCIL

Meets Tonight in Regular Session.  
Meeting Will Probably be a Short One—An Ordinance to Come Up.  
The city council meets tonight in regular session, and the indications are that the meeting will be a brief one. It is the second to last regular meeting of the present council.  
The ordinance providing for the improvement of Jefferson street from Fountain avenue will come up, and probably be passed. It seems to be the general opinion of the taxpayers of Paducah that if the property own-

Chief Dispatcher Allen Jorgenson was quite ill today, and night Dispatcher Bennett was in his place.  
Roadmaster A. T. Sabin, of the I. C. is in the city today.  
Mr. Robt. Albrook, formerly in Mr. C. C. McCarty's office here, but now of California, is visiting friends here.  
Mr. George Warfield will be checked out tomorrow as Union Depot agent by Traveling Auditor Woods, as previously announced.  
Mr. Flint Singletary, formerly of Paducah, but who has had a run out of Louisville on the I. C. ever since September 15th, was in the city today en route to his old home in Clinton on a visit.

John Dunn, assistant to President Fish, of the Illinois Central railroad, died at Mercy Hospital Saturday, death being caused by an acute affection of the kidneys and edema of the lungs. Ill health compelled him to resign his position with the company a year and a half ago.  
Mr. Dunn came to the United States twenty-eight years ago from England. He was one of the best known railroad men in the country, and was identified with the important extensions of the Illinois Central system.

Dr. Marmaduke Dillon, of the I. C. Hospital, received a telegram Saturday announcing the death of State Senator S. W. Hill, of Murphysboro, Ill., of paralysis of the heart. Dr. Dillon was en route to St. Louis a few weeks ago when Senator Hill fell from the train and broke a limb, which the doctor set, then accompanying the gentleman home.

The Illinois Central fire department is one of the best equipped in the State. The discipline is perfect, and the boys may some day prove of incalculable benefit to the company should a fire break out.  
Special Agent J. T. Gorley has been down at Mayfield on business. He came in from there last night.

Notice of Dissolution.  
Notice is hereby given that the General Electric Light and Power Company is closing up its business, and said corporation has been dissolved by action of its stockholders in accordance with section 561 Kentucky statutes.

### CONFIDENCE IS NOT CONCEIT.

We are confident that we have a stock of reliable, useful merchandise. We are equally confident that it will be sold right. If you've a need that this store can supply you can bank upon this fact: It will be supplied fairly and honestly. We're not doing business for a week or a month. It's a life time matter with us, and your patronage is valuable. If we protect your buying interest, we can reasonably count upon your continued patronage. Doesn't all this strike you as being common sense and good business policy. Now for goods and prices.

**DRESS GOODS HARVEST.**  
Much might be said about them and it would all be interesting news to hundreds of dress good buyers. The stock is full of dress goods at the following else prices: 11 1/2c, 18c, 23c, 25c, 35c, 39c, 48c, 65c, 75c, 85c and \$1 a yard. All honestly priced and gratifying to any of our salespeople to show you. The different priced ones you'd like to see with trimmings to match and the linings and the other articles needed for building an attractive dress.

**JACKETS, CAPES, CHILDREN'S GARMENTS.**  
No man or child in this section need go without a warm winter garment in the face of such values as we are offering. Inspect the stock in our cloak room; prices range from \$1 up to \$25 a garment.

**MONEY SAVING LOTS OF MILLINERY.**  
These demand your early attention for they are limited in quantity, and first comers secure the bargains.

Ten dozen leather trimmed cow boy walking hats, same as are being sold all over town at \$1.25, will go on sale Monday at 49c.

Nine dozen felt sailors, 2-band velvet around crown, velvet bound edges, not shoddy, but good felt a 50 cents.

Six dozen good felt flats, all colors, at 35 cents.

**CAN YOU BEAT THIS.**
